Sheave Bearings

Double Row Full Compliment Cylindrical Roller Bearings

Series E5000X NNTS1

Highest Dynamic & Static Load Ratings

Maximum Utilization of the Bearing Section Provides the Highest Possible Load Ratings

Superior Sealing Capability

Unique Design Rubber Contact Seal on Both Sides of the Bearing Prevents Dust and Water Intrusion

Assembly: Easy to Locate Axially by Using Snap Rings on Both Sides of the Outer Ring

Lubrication: Lithium-Soap Based Grease with EP Additives

Relubrication: Lubricate Through the Lubrication Holes & Groove on the Inner Ring

Operating Temperature Range: -30 to 80°C (-35 to 175°F)

Application: Highly Suitable in Rope Sheaves

E5000X NNTS1

With Snap Rings
